

# DEARBORN HEIGHTS SCHOOL DISTRICT #7

## MEDICAL CERTIFICATION FROM HEALTH CARE PROVIDER FMLA LEAVE

(to be submitted within fifteen (15) days of employee requesting FMLA leave)

Employee's Name: \_\_\_\_\_ Position: \_\_\_\_\_

Building: \_\_\_\_\_

Reason for employee requesting FMLA leave (circle one):

- A. To care for an immediate family member (son, daughter, spouse, or parent) with a serious health condition; or
- B. The employee's own serious health condition prevents him/her from performing the functions of his/her job (i.e. the health care provider determines that the employee is unable to work at all or is unable to perform any of the essential functions of the employee's position within the meaning of the Americans with Disabilities Act).

If reason #A has been circled above, indicate the name and relationship of the immediate family member (patient):

\_\_\_\_\_

Name of treating health care provider: \_\_\_\_\_

Type of medical practice (field of specialization, if any): \_\_\_\_\_

Approximate date on which the serious health condition commenced: \_\_\_\_\_

Probable duration of the condition/incapacity: \_\_\_\_\_

Pages four and five of this form describe what is meant by a "serious health condition." Does the patient's condition (for which the employee is taking FMLA leave) qualify under any of the categories described? If so, please check the applicable category.

(1)\_\_\_\_ (2)\_\_\_\_ (3)\_\_\_\_ (4)\_\_\_\_ (5)\_\_\_\_ (6)\_\_\_\_, or None of the above \_\_\_\_\_

Describe the medical facts which support your certification, including a brief statement as to how the medical facts meet the criteria of one (1) of these categories:

\_\_\_\_\_  
\_\_\_\_\_

Will it be necessary for the employee to work intermittently or on a reduced leave schedule as a result of the condition (including, as a result of treatment):      **Yes**                      **No**

If yes, give the probable duration:

\_\_\_\_\_

If the condition is a chronic condition or pregnancy, state whether the patient is presently incapacitated and the likely duration and frequency of episodes of incapacity:

\_\_\_\_\_  
\_\_\_\_\_

If additional treatments will be required for the condition, provide an estimate of the probable number of such treatments:

\_\_\_\_\_

---

**To be completed by the employee requesting FMLA leave for reason #C:**

State the care you will provide and an estimate of the period during which care will be provided, including a schedule if leave is to be taken intermittently or if it will be necessary for you to work less than a full schedule:

A "***Serious Health Condition***" means an illness, injury, impairment, or physical or mental condition that involves one of the following:

1. **Hospital Care**: Inpatient care (i.e. an overnight stay) in a hospital, hospice, or residential medical care facility, including any period of incapacity (e.g., inability to work, attend school or perform other regular daily activities due to the serious health condition, treatment therefor, or recovery therefrom), or any subsequent treatment in connection with or consequent to such inpatient care.
2. **Absence Plus Treatment**: A period of incapacity (i.e. inability to work, attend school or perform other regular daily activities due to the serious health condition, treatment therefor, or recovery therefrom) of **more than three (3) consecutive calendar days** (including any subsequent treatment or period of incapacity relating to the same condition), that also involves:
  - a. **Treatment two or more times** by a health care provider, by a nurse or physician's assistant under direct supervision of a health care provider, or by a provider of health care services (e.g., physical therapist) under order of, or on referral by, a health care provider (treatment includes examinations to determine if a serious health condition exists and evaluations of the condition, but it does not include routine physical examinations, eye examinations, or dental examinations); or
  - b. **Treatment by a health care provider on at least one (1) occasion** which results in a **regimen of continuing treatment** under the supervision of the health care provider (e.g., a course of prescription medication or therapy requiring special equipment to resolve or alleviate the health condition). A regimen of continuing treatment that includes the taking of over-the-counter medications such as aspirin, antihistamines or salves; or bedrest, drinking fluids, exercise and other similar activities that can be initiated without a visit to a health care provider, is not, by itself, sufficient to constitute a regimen of continuing treatment for purposes of FMLA leave.
3. **Pregnancy**: Any period of incapacity due to pregnancy or for prenatal care.
4. **Chronic Conditions Requiring Treatment**: Any period of incapacity or treatment for such incapacity due to a chronic health condition (e.g., asthma, diabetes, epilepsy, etc.). A chronic condition is defined as one (1) which:
  - a. Requires **periodic visits** for treatment by a health care provider, or by a nurse or physician's assistant under direct supervision of a health care provider;
  - b. Continues over an **extended period of time** (including recurring episodes of a single underlying condition); and
  - c. May cause **episodic** rather than a continuing period of incapacity.
5. **Permanent/Long-term Conditions Requiring Supervision**: A period of incapacity which is **permanent or long-term** due to a condition for which treatment may not be effective (e.g., Alzheimer's, a severe stroke or the terminal stages of a disease). The employee or family member must be **under the continuing supervision of, but need not be receiving active treatment by, a health care provider.**

6. **Multiple Treatments (Non-Chronic Conditions):** Any period of absence to receive **multiple treatments** (including any period of recovery therefrom) by a health care provider or by a provider of health care services under the orders of, or on referral by, a health care provider, either for **restorative surgery** after an accident or other injury, or for a condition that would likely result in a period of incapacity of more than **three (3) consecutive calendar days in the absence of medical intervention or treatment**, such as cancer (chemotherapy, radiation, etc.), severe arthritis (physical therapy), kidney disease (dialysis).

Conditions for which cosmetic treatment are administered (e.g., acne or plastic surgery) are not "serious health conditions" unless inpatient hospital care is required or unless complications develop. Ordinarily, unless complications arise, the common cold, the flu, ear aches, upset stomach, minor ulcers, headaches other than migraine, routine dental or orthodontia problems, periodontal disease, etc., are conditions that do not meet the definition of a serious health condition and do not qualify for FMLA Leave.

Mental illness resulting from stress or allergies may be serious conditions, but only if all the conditions of the above subparagraphs are met.

Substance abuse may be a serious health condition if the conditions stated above are met (i.e. the treatment is by a health care provider or by a provider of health care services on referral by a health care provider). Absence due to an employee's use of the substance, rather than for treatment, does not qualify for FMLA Leave.
